

Mounting the SVR3000 in a Rack

Equipment and Tools Required:

- 19" Rack
- (2) Rack mount brackets (included)
- (8) Machine screws (included)
- (4) Rack mount screws (not included)
- Phillips screwdriver

WARNING: To prevent bodily injury when mounting or servicing this unit in a rack, you must take special precautions to ensure that the system remains stable. The following guidelines are provided to ensure your safety:

- This unit should be mounted at the bottom of the rack if it is the only unit in the rack.
- When mounting this unit in a partially filled rack, load the rack from the bottom to the top with the heaviest component at the bottom of the rack.
- If the rack is provided with stabilizing devices, install the stabilizers before mounting or servicing the unit in the rack. Statement 1006.

WARNING: Disconnect all power before installing or moving the SVR3000.

Mounting the SVR3000 to the Wall

Equipment and Tools Required:

- (2) Wall mount brackets (included)
- (8) Machine screws (included)
- (8) 5/8" wood screws (included)
- Phillips screwdriver

WARNING: To comply with safety regulations, mount switches on a wall with the front panel facing up. Statement 266.

WARNING: Disconnect all power before installing or moving the SVR3000.
