FOR IMMEDIATE RELEASE

Linksys Appointed Acclivities Technology, Inc. As Linksys Voice System Authorized VAR

Toronto, ON - Linksys, a division of Cisco Systems, Inc. (NASDAQ: CSCO) a global leader in Wireless and Ethernet networking for consumer and SOHO users, appointed Acclivities Technology, Inc. as their Value Added Reseller (VAR) for their Linksys Voice System line of Voice over Internet Protocol (VoIP) product suite.

Linksys Voice System (SPA9000) is a full featured IP PBX system for the Small Business and Home Office. The SPA9000 marries the rich feature set of high-end PBX telephone systems with the convenience and cost advantages of Voice over IP. It has common voice system features such as an auto-attendant, shared line appearances, three way call conferencing, intercom, music on hold, call-forwarding and much more. The SPA9000 opens up access to the benefits of VoIP, including low cost long distance service, telephone number portability, and one network for both voice and data.

Both parties are very excited about the Canadian marketplace for its diversity and the volume of growing VoIP user base.
